

Business Checking Comparison

Every business is unique and requires a checking account designed to fit your needs. Space Coast Credit Union gives you the choices you need and the value you deserve.

Businesses may set up more than one checking account, so consider a combination of accounts to meet your needs.

To open your business checking account, simply visit any SCCU branch.

Please bring the appropriate documentation for your business, along with your initial deposit. If your account will be joint, both account owners must be present.
